

# FIREWORKS Safety Tips

## DO

Obey safety barriers around a fireworks show and stay 500 feet from the launch site.

Supervise teens when using fireworks.

Wear eye protection when using fireworks.

Read the labels and instructions before using fireworks at home.

Remain standing when using sparklers.

Soak used fireworks in water before throwing in a trash bag.

## DON'T

Get too close to the fireworks.

Allow children to use fireworks or sparklers.

Use fireworks inside at any time.

Try to relight a "dud" firework. Soak in water before throwing away.

Throw sparklers, even when not lit.

Touch fireworks debris. It may still be hot.

57% of all fireworks injuries involve:

Bottle Rockets

Sparklers

Firecrackers

42% of fireworks injuries involve the hand, arm or fingers.
